Orders sent to TRAIN & PHIPPS, No 41 Commercial Street, Boston, or to the subscriber, (who is the only Agent for their sale and manufacture in the New England States,) will meet with prompt attention.

Samples sent to order, with certificates from A A HAYES Assayer to the State of Massachusetts also of Committee on Science and the Arts of the Franklin Institute, Philadelphia, and of those who have used and are using the Fastening.

[Copy of a Letter.]

BALTIMORE, Jan 8, 1856

Messrs C & J Marshall—Gentlemen At the request of your Agent in Baltimore, in regard to your common and copperage of your copper-coated spikes, we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ships, inasmuch as you have the strength of iron with the preservative qualities of copper

We have used some of your Spikes in old vessels as a substitute for copper, and have had occasion to draw them out a year afterwards, and found them with the coating as firm as when they were driven and with no appearance of oxidation

Very respectfully yours,

(Signed) JOHN D PARDY & BRO.

Singer's Sewing Machines.

ALL PERSONS who desire to obtain full and reliable information respecting *SINGER'S SEWING MACHINES*—their price capabilities advantages, sizes, improvements, method of working means of procuring them, and all other particular—can do so by applying at our office,

No. 323 Broadway, New York,

by letter or in person for

I M SINGER & CO'S GAZETTE

This paper is devoted entirely to the Sewing Machine interest Copies will be supplied gratis to all interested.

N B—The unparalleled success of our Sewing Machines has induced several fraudulent imitations of them besides numerous infringements of our patents—of which we own sixteen Suits for the infringement of our patents have recently been decided in our favor in the U S Circuit Courts in New York and New Jersey and these suits the great principle of

Holding Down the Fabric to be Sewed to the Surface of the Machine, by a yielding pressure

which is used in all Sewing Machines—has been fully established Wheeler & Wilson, and the Grover & Baker Sewing Machines are the only large each infringe three distinct patents owned by us We have suits against them in several of the U S Courts, which will soon be tried. We hereby caution the public not to buy any infringing Machines as they and be compelled by law to stop using them, and to pay costs and damages

Local Agents wanted to make sales of our improved sewing machines To persons properly qualified, for the business, a rare opportunity for profitable and pleasant employment is offered.

New improved machines exchanged on liberal terms for old machines of every kind

OFFICE of the Commissioner of Lotteries.—*Baltimore, April 15, 1856* The undersigned Commissioner of Lotteries of the State of Maryland, being in receipt daily of letters from various portions of the country, making inquiry as to Lottery Schemes with which the country is flooded, which purport to be *Decided by the Drawings of the Maryland Consolidated Lotteries*, takes this method to answer all such letters of inquiry, and inform the public *that all Lotteries purporting to by decided by the Maryland Drawings are Gross Frauds* that certain parties who style themselves Messrs & Co, and pretend to be Managers of Sole Agents for the Grand Charter Lotteries at Cleveland, Ohio, are impostors, and said Lotteries a fraud, having neither legal or presumptive existence; and that another fictitious firm, styled Murry & Co, Cleveland, Ohio, are also impostors, and all Lotteries which they profess to be managers or agents for, are also frauds

RICHARD FRANCE, of this city, is the Contractor for drawing the Maryland Lotteries The business is conducted under the firm of R. France & Co as Managers, and they have no sole agents in the city of Baltimore. There are, however, some forty Recognized Venders for the State of Maryland, who derive license under him through this office, to sell tickets in the Maryland Lotteries.

ARNOLD'S COMBINED FOOT-STOVE, LANTERN, ...AND.... NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE it answers an excellent purpose, and can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp the flame of which is protected from every external object

As a LANTERN it answers all the usual purposes, and is less likely to be overset, or get broken and can be used as a house lamp with equal advantage

As a NURSE LAMP and in cases of sickness, it is of great advantage in keeping drinks or medicines warm beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat iron heat in the same length of time

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description whether of children or adults, of recent or long standing

PREPARED ONLY BY

REV WALTER CLARKE,

Sole Proprietor, Comishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs is gratefully acknowledged and especially in cases of obstinate and long standing Coughs it speedily allays the unpleasant sensation in the throat which creates coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep who for weeks had been deprived of that blessing

Sold in trial bottles 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each

Extract of a letter from Daniel Adams, Esq, of Bowdoinham Maine

FEBRUARY 17th, 1853,

To Rev. Walter Clark Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife She had been afflicted with a cough for two years—that bottle entirely removed it

From Rev Jesse Hoyt, Lewiston Falls

Rev. Clark—Every bottle of the Universal Cough Mixture which you left with me, I sold—and I have several applications for more As far as heard from, all have been perfectly satisfied with the medicine One man who had a cough defying sanative, attended with severe tightness of the chest and shortness of breath so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it was perfectly cured and has had no cough since. He says it has been medicine in the world, that cannot be recommended too highly

JESSE HOYT.

From Mr. Fletcher Chuckerent, for North Dixmont, Maine

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing and others who have been declared six months without receiving any benefit have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard Thorndike, Me.

FEBRUARY 1, 1854

To Rev. Walter Clark Dear Sir—I take this method that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs I had previously taken several kinds of medicine and had been under the care of several physicians, without obtaining the least relief I happily your Universal Cough Mixture was recommended to me I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

That intense *Whig* paper, the Bangor Journal, excuses the democrats in Congress for refusing to investigate the murder of the Irish waiter Keating—thus showing very clearly its own manifest proclivities towards that party. It comes promptly to the end of the democratic organs, and even steps in before them to reply to our strictures upon the acts of *democratic* members of Congress, and to prevent, if possible, the Irish voters from taking just offence at the conduct of these pretended friends. And the editor very kindly "suggests" excuses for the democrats in Congress—for instance, the following pretence: that Herbert the assassin is only a "contestant" for a seat in Congress, and therefore not amenable to action by the House. Even if this were so, ought that fact to prevent *inquiry*? But it is not true, in the light which the Journal would present it. Herbert is one of the originally elected members from California—chosen in September, 1854, when the democrats carried the State—and *his* seat is contested. He is not the contestant himself. He is the sitting and acting member. He *votes* upon all questions, and *has just voted against any investigation into the assault upon Senator Sumner.* He is as much a member of Congress, in every practical point, as any man who sits in the hall—and as such is responsible for his actions. The pretence that the House can do nothing with Herbert because his seat is contested, is a pitiful, false and contemptible one, and advanced only to shield the dastardly conduct of the democratic members. Were it sound, the man whose seat is contested would be placed (or above the uncontested members in point of immunity, and might commit all sorts of outrages and atrocities, and still the House be compelled to suffer the disgrace of his fellowship. The crime he committed is atrocious, and the excuse upon which his friends seek to shield him from expulsion is unutterably mean and contemptible.

The Journal has its accustomed sneer, in the article of Tuesday, upon the "invitation of the Whig for the Irish voters to fall into the Republican ranks." We have pressed no such invitation upon them. We have simply presented facts which they would never have learned from democratic papers, nor from the "Allied" Straight Whig journals. We have only exposed the hollow-heartedness of the pretended democratic friendship for Irishmen, and shown how much more powerful is their love for southern slaveholders, inasmuch as the political strength and influence of the slaveholders is so far greater than that of the Irishmen.—They love the *votes* of both Irishmen and slaveholders, but when the interests, the demands or the rights of one class conflict with those of the other—why, the Irishmen must go to the wall, as we see in the case of the assassin Herbert. We have shown that these political sham democratic leaders while industriously representing to Irishmen that the free soil Republican party are their unmingled enemies, are quite ready themselves to abandon the cause of an Irishman whenever the superior claims of a slave-holder's friend for protection are presented. We have also shown that it is against the interest of the Irish laboring classes and mechanics, to have the institution of slavery prevail in this country, and therefore against their interest to support any party which refuses to put a stop to slavery extension.

These things are what we have presented to the consideration of Irishmen, and what some of their own papers have also commented upon, as we are glad to perceive. We do not ask them to vote the Republican ticket, but to reflect upon the treatment they receive from pretended political friends, and then vote just as they please.

At the meeting of the American Tract Society of Boston—on Tuesday last, all the officers of last year were re-elected except Rev Dr Adams, the author of the "South Side View of Slavery." He received 43 votes, to 56 for Rev A. L. Stone. Dr. Adams had made a speech, defending his expressed opinions on Slavery, and citing the opinions of various newspapers and clergymen in favor of his book—among the newspaper opinions being those of the Boston Courier and Boston Post (at the mention of which there was much laughter), the Richmond, Va., Dispatch and the Watchmen and Observer of the same city. The resolutions adopted by the Society, by a vote of 40 to 12, declare among other things that the publications of the National Society "ought to bear upon slavery as upon other sins."

The damage to the new brig Susan T Nevcross, by the fire on Wednesday morning, is estimated at $1000 or $1200, but it is found necessary to put in a new mainmast. The stick is not deeply burned, and could probably be made as strong as ever; but on account of insurance, it may be thought best to take it out. It is now thought quite certain that the fire took inside the vessel.

The Accidental Shower-bath.—The couple who were drowned by going over the falls at Skowhegan, as noticed yesterday, were —— McClinton (James or William) and Miss Welch, both of Skowhegan.

Maine Medical Association.—This Association will hold its next annual meeting in this city, on Wednesday next, being the first Wednesday in June. An address is expected.

We understand that Mr. L. H. Bates, Civil Engineer, is about commencing the survey of the entire counties of Penobscot, Hancock and Washington, for the purpose of publishing a map of each of the above counties. Washington Correspondence.

[The following is the account given by our Washington correspondent, of the assault upon Mr. Sumner. We call attention to the closing statement of the letter—that one of the Buchanan delegates from Maine to the Cincinnati Convention, who was at Washington when the assault took place, *justified the outrage.* Does Mr Buchanan thus seek Southern support?]

Washington, May 23.

Yesterday, the Senate of the United States was a scene of one of the most outrageous and cowardly acts known even in the history of border ruffianism. Just after the adjournment of the Senate, Hon. Charles Sumner, while engaged writing at his desk, was attacked and most brutally and shamefully beaten by Preston S. Brooks, a member of Congress from South Carolina. While Mr. Sumner was sitting at his desk, engaged as stated above, Mr. Brooks came into the Senate Chamber, followed by a corps of his friends and accomplices, and stepping in front of Mr. Sumner's desk, asked him if he was Senator Sumner. Mr. Sumner replied that he was. Brooks, then said, you have insulted South Carolina, and a relative of mine, (Senator Butler) at that moment striking a blow with a large gutta percha cane, an inch in diameter, which completely staggered Mr. Sumner, rendering him insensible and helpless as a child, and before any one could interfere to prevent, he struck Mr. Sumner on the head, all present agreeing in saying, at least two dozen blows, given with all his might, and when the attempt was made to save him from being assassinated—murdered on the very floor of the Senate, Kent of South Carolina, with uplifted cane, threatened to knock down whoever should attempt to interfere. And this is the chivalry, the chivalry of South Carolina, the chivalry of the South, thus the chivalry of *slavery.* When Senator Crittenden Morgan and Murray of the House are getting the cowardly wretch away, he was entirely inscensible, and perfectly frenzied in blood. These are the facts as obtained from an eye witness.

There was the wildest excitement here in regard to the occurrence. The South as a general thing, defend the conduct of Brooks as right and proper, while the Northern men are boiling over with wrath and indignation.

This affair, in connection with the alarming news from Kansas, is drawing the country to a point that bodes anything but quiet. It shows that the South must unite in self defence, or bow down in submission to the slave power of this most brutal attack is found in the speech of Mr. Sumner, delivered in the Senate on Monday and Tuesday of this week, in which his course pursued in Kansas, his swindle, &c., in regard to S[illegible] has so dismasted the chaste of [illegible] ablest and [illegible] ered at the [illegible] Hayne. [For the Bangor Daily Whig & Courier.]

Mr. Editor,—Is there nothing to be done? are we American citizens? Do we owe nothing to the country, to the memory of our fathers and ourselves—that we stand still and see the sanctuary of the Nation, the Senate Chamber of the United States, desecrated by a Southern bully, and his hands and abettors, with bludgeon in hand, to deal blows upon the defenceless head of that high-minded, unsuspecting Senator, Charles Sumner? The very thought of such an outrage makes the blood curdle in our veins. Had the ruffian assassinated his victim for his money, he would have had the satisfaction of obtaining his desire. The blows dealt upon that devoted head may prevent him from producing another speech, like creditable to his head, his heart and his country, but will not enable the assassin to take from his victim those high and God-given abilities, that refinement of feeling and manner which rendered his speech unanswerable by the coarse and brutalized mind of the Senator from the South.

At a short distance, and all in sight of the National Capitol, at the very fashionable hotel, (Willard's) where the chivalric sons of the South are wont to congregate, we hear the report of a pistol, and find a faithful, attentive waiter laid low in death, for the simple act of conforming to the rules of the house, and for the violation of which rule our Southern bully should have been expelled.

What redress do our poor Irish waiters friends obtain at the hands of the Southern oligarchy, and our Democratic party, blended as it is in one great power of oppression? It is thus—When the Republican member from Maine introduced a resolution to raise a committee to investigate the affair, it was laid on the table by those very murderous Southern members and their allies, the cringing slavery apologists of the North. Time and space would fail to give a detail of the diabolical outrages now going on, and the wholesale murder of our peaceful citizens in Kansas by those fiends, directed by the President and his myrmidons, and acquiesced in by the (so called) Democratic party of the North.

I again ask—Is there nothing to be done? The South thinks there is. Charleston, South Carolina, contributions are being made for the purpose of getting up a testimonial for presentation to the brute Preston S. Brooks, the perpetrator of the outrage upon Senator Sumner, showing that the South stand by their friends to the death.

For myself, I must say that it is unworthy of us as American citizens, to stand and look on with indifference. To see the blood of our fellow citizens poured out like water, because, forsooth, the bayonet and the pistol have not done their work among us at home.

If there is no protection for our Senators, Representatives and Freemen of the North while at the Capitol, they will either be compelled to withdraw from the National Halls of Legislation, or their constituents must take measures to give them that protection which our defunct Government has failed to provide, and thereby defend the rights of

American Citizens.

Northern Democrats Justifying the Assault upon Mr. Sumner. The Washington correspondent of the New York Herald writing on the 24th, says that six of the Massachusetts delegates to the Cincinnati Convention, who were in that city on the evening previous, were speaking of the assault upon Mr. Sumner, "when four *declared their hearty approval of the whipping*, and the other two regret it only on account of its probable effect among the people of Massachusetts."

Northern Democrats Feasting the Ruffians. At Washington, on Saturday evening, *several members of the Massachusetts delegation to the Cincinnati Convention gave an entertainment at Willard's, at which were present Messrs. Brooks and Keitt*, who made the assault upon Senator Sumner.

The following are the comments of the Richmond, Va., *Whig*, upon the outrage on Mr. Sumner:

A Good Deed.—As will be seen by telegraph, Mr Brooks, of South Carolina, after the adjournment of the Senate yesterday, administered to Senator Sumner, the notorious and foul mouthed Abolitionist from Massachusetts, an elegant and effectual caning. We are rejoiced at this. The only regret we feel is, that Mr. Brooks did not employ a horsewhip or a cowhide upon his slanderous back, instead of a cane. We trust the ball may be kept in motion.—Seward and others should catch it next."

The Richmond Examiner, a Democratic paper, thus speaks of the assault upon Mr. Sumner:

"He concludes a two days' discharge of scholarly platitudes and pedantic dullness by venting a filthy stream of billingsgate on heads hoary with age; answers insult from men who would afford him personal satisfaction with vulgar epithet; and when cowed for cowardly perspiration, falls to the floor an inanimate lump of inanimate cowardice, and most glorious example of the *man of peace.*"

The Washington Union has at last broken silence, and speaks of "*a rencounter*" between Messrs. Sumner and Brooks! A fellow armed with a deadly weapon attacks, and at the first blow stuns a man, who is prevented from defending himself by his position, and the Union calls it "a rencounter."

Paper Warrington.—The Washington correspondent of the New York Commercial, under date of May 24, says:

"The friends of the Administration have hitherto manifested a disposition to palliate Mr. Brooks's conduct, if not to shield him, but they are beginning, as I learn, to take a different view of the matter. Policy, if not principle, will induce them to take a proper course on the subject. They begin to see that the movement was a blunder in a political point of view, even if its morality was to be considered by them as unquestionable. They now perceive that it will give an impulse to the Republican or Anti-Slavery party which it lacked before, and will very probably be the cause of the defeat of the Democratic candidate at the approaching Presidential election.

To avoid such a consequence they may be disposed to support such a report as the committee of inquiry may make.

The New York Mirror states that Mr. Chas. S. Wilkes, formerly connected with that office, has received the appointment of Consul for Nicaragua, under the Walker-Rivas Government.

The Dismissal of Mr Crampton and Sumner.—*New York, May 23.*

The Courier Telegraphic Correspondence says Mr Crampton and the Consul are to be dismissed. The papers in the case will be ready to-morrow, and will be dispatched on Saturday. Dallas will be instructed that the British government that the President is much satisfaction in the friendly spirit of Great Britain, and reciprocates the personal objections to Mr. Crampton, so he will be withdrawn. It is expected that Mr. Crampton's own letters will corroborate the testimony of witnesses against him in the Enlistment trials. It is expected that Mr. Dallas will be instructed that Mr. Dallas will be in retaliation. There are rumors that the British squadron has orders against the fishermen at San Juan as Mr. Crampton is dismissed.

Mr. Sumner is ill with fever to-day. The House Committee took his testimony to-day. The Committee also took the testimony of Gov Gorman. The evidence of Gov Gorman corroborates the published accounts.

Shot and Shell around Senator Sumner.—As to collecting and removing these missiles which are now broadcast in the very soil, like seed on a beach, for the space of seven miles, and two miles in breadth, the task is highly interesting. Piles of shot have been collected in every ravine, and stand there as monuments of the uselessness of such efforts as have been made to gather the iron shower which fell for seven long months in front of Sevastopol. Every watercourse is full of iron, shell and splinters of grape shapes abound in every ravine. The Russians will only have to wait while the Allies leave behind them, large magazines of shot—but shell will be too dangerous, as they were more sparingly used, and were generally damaged if they did not burst. Guns, too, are buried in the earth, and fleer out from earthwork of overthrown batteries.

It was only yesterday I passed some five or six fine English cannon, apparently 32 pounders, which had been flung down the side of the ravine from the French battery overlooking the backyard and dock, and were lying upside down in the ground. The artillery are daily engaged in singing guns and mortars, and sending them down to Balaklava for shipment. It is calculated that the Russians fired about 30,000 tons of iron at us. It is certain that we gave them 11,000 in return, and possibly the allies fired 20,000 tons, so between 60,000 and 70,000 tons weight of iron must be lying about on the plateau.

Railroad Station Indicator.—We saw yesterday, in the cars on the Providence and Worcester Road, a new invention which merits much notice. It is a machine, invented by Wm Capron, Conductor on the road, for the purpose of indicating to the passengers when the train is approaching the station which the train is approaching. We do not know as we can describe it so that our readers will understand how it operates, but we will try.

In a small box, about 24 by 18 inches, fastened inside the cars near the door, so as to be seen by all the passengers, within is the machinery, so contrived, that when the brakesman outside pulls a wire, attached to the machine, a bell is struck which calls the attention of the passengers, and at the same moment the name of the next station is pushed forward upon the dial plate in face of the machine, so that all can read it. Thus, without any trouble to the brakesman or conductor, and without the annoying necessity of opening the door and calling out the name of the place, each passenger is advised of the whereabouts of the train. It seems to me that Mr Capron's ingenuity has contrived a machine that must prove very valuable, and indeed an indispensable attachment to every passenger car upon our railroads. We would do well to see the "Station Indicator" in use.—*Worcester Transcript.*

Illness from the Birds. A gentleman called in a thicket of bushes near his dwelling, and in a thicket of bushes near his dwelling, collection of brown thrushes who for several days attracted his attention by their loud and strange movements. At length, curiosity was so much excited, that he determined, if he could ascertain the cause of the excitement among them.

Examining the bushes he found a female bird, whose wing was caught in a limb in such a way that she could not escape. Near her nest, containing several half grown young birds. On returning a little distance, a company of ants appeared, with worms and other food in their mouths, which they gave first to their mother and then to her young, she the meanwhile cheering them in their labor of love, by a song of gratitude.

After watching the interesting scene until he was satisfied, the gentleman released the bird, when she flew to her nest with a song to her deliverer, and her cheerful notes dispersed to their several abodes, as they went a song of joy.

The Inside Lay.—A backwoods boy was on a deposition one of the Georgia railroads, and of course deeply interested in gazing, for the first time, at the mighty steam engine. Following the motions of a car, and while indulging in a fit of wonderful curiosity, the wheels screamed, the bell rang and the steam horse began to scrape off "two forty." "Oh Lordy," shouted the boy, "stop it, stop it, I ain't agwine." Instead of stopping forward he opened the door and jumped out on the platform just then the train was crossing a deep and cavernous looking trestle work and seeing the earth and trees beneath him he fainted and fell. Directly the conductor came to and looking up at the boy who stood by him, he exclaimed with a deep sigh, "Orlando stranger, *has the thing left?*"—*J C Telegraph.*

The credit of inventing gas lighting is given to Philip Le Bon, an engineer of roads and bridges in France, in 1786. He commenced distilling wood, in order to obtain from it pitch, and phrophgneous acid, but his object was the possibility of obtaining gas from fatty or oily substances. He died, ruined by his experimenting. The idea soon put in practice the crude ideas of Le Bon. In 1804, Windsor patented and the credit of inventing the process of lighting by gas, in 1805, several shops in Birmingham were illuminated by gas manufactured by the process of Windsor and Murdoch, among whom the inventor of steam engines. In 1816, the first public gas was made in London, and it was not until 1818, that this invention was applied to the theatre.—*Post.*

During the ensuing summer vacation of Harvard and Dartmouth Colleges, the students of those institutions will have a grand treat at base ball and other games, to test the question whether physical superiority is best cultivated among the mountains or on the seaboard. The place of meeting will probably be in the vicinity of Concord, N. H., and the exhibition will be public.

The New York Mirror, edited by one of Fillmore's office-holders, who would probably like to be the same again, is deeply disgusted with both parties in the Kansas fight. The Springfield Argus is also deeply disgusted with Mr. Sumner for calling Squire Douglas the Sancho Panza of slavery.

During the fifteen years the Boston and Portland Steam Navigation Company have run their boats, which have made their trips nightly between the two cities, through summer and winter, regularly, and carried multitudes of people, they have not had a single passenger killed or harmed.

This is to certify that I have been troubled for the last six years with humors, which broke out on my head, breast, and limbs, forming a continuation of sores, attended with severe pain equal to boils. And have made use of many different medicines during the time, receiving no benefit from any, but for the last six months have been getting worse, and had given up all hopes of ever being any better, but fortunately about one month ago I was induced to make a trial of the Allen Ointment, which applied to the parts affected made a smarting sensation while drawing the humor out which made it seem worse for a few days, but in the short space of three weeks, by making a continued application according to directions I am entirely free from all sores, it having affected a real cure, and I would most cordially recommend it to the afflicted, as being a safe and speedy medicine. The Constantinople correspondent of London Times, in reference to the treaty between the United States and Persia, says it was concluded under the auspices of the Russian Mission, and in part is directed against England. It pretends to be a commercial treaty, and would be so but for three articles. The first says the Persians not being a maritime nation, American will be obliged, for the advantages which the treaty grants to their commerce, to have a fleet in the Persian Gulf, in order to defend Persia against the enterprises of any maritime nation she should attack her. The second gives the American the right to have their ships —— in the mouth of the Tigris, and the third allows them a factory at Kurnah

The Times Crimean correspondent puts the Russian losses in and about Sebastopol at 85 000 while hundreds of thousands perished by fatigue and disease. He says they would not have been able to sustain themselves many days longer, had not peace been declared

SECOND DESPATCH.

From Kansas.

NEW YORK, May 28

The Kansas correspondent of the Tribune writes from Leavenworth City, May 20th, two days before the attack. He says, I have just received intelligence from Lawrence, by a special messenger who arrived last night. The attack had not yet been made upon the town, but the war rages around it after a guerilla fashion The ruffians have got four pieces of artillery—two brass howitzers that went over with the Atchison party across the Delaware Reserve another brass gun in the camp at Franklin that came up through Westport, and one I have been informed, at Lecompton.

The last few days has witnessed a scene of horror around Lawrence Yesterday morning Mr Stewart, formerly of New York State, one of the Clerks of the Kansas State Legislature, was shot through the head on the road a few miles from Lawrence, and died instantly. Another man named Jones, from Illinois, a quiet man, who had never taken any position in public affairs that might have rendered him obnoxious was also killed, at the Blanton Bridge, on the Wakarusa. He was returning home from a store with a bag of corn meal on his horse, when two of the fellows, whom I learn were from the camp at Franklin, assailed him.

No account has been received of the movements of the posse since the attack on Lawrence on the 21st, after the arms in Lawrence had been delivered.

Gov Shannon was requested by the citizens to interfere and prevent the outrages threatened by the posse, but he declined Mr Schuyler then called upon Mr. Oliver to induce him to use his influence with Gov Shannon, Mr. Sherman [of the Investigating Committee,] made a similar request, and Mr Oliver promised an answer in 15 minutes, but neglected to do so until too late

Fuller of Maine voting with the Slaveholders

WASHINGTON, May 24

In the House proceedings yesterday upon Mr Campbell's resolution of inquiry into the outrage upon Mr Sumner, you will observe that before reaching the final vote, there were two votes, both decisive of the fate of the movement.

The first was upon sustaining the Speaker's decision that the resolution was privileged—*Fuller of your State voted here with the slaveholders*, against the decision. The Speaker was sustained by a majority of fourteen If he had been overruled, it would have required a two-thirds vote to have introduced the resolution at all.

The second vote was upon ordering the main question The success of this motion was essential to save the resolution from being talked to death. *Fuller voted here with the slaveholders*. The main question was ordered by a majority of fifteen

On the adoption of the resolution, Fuller, who had done everything possible to kill it voted in the affirmative. The majority on the adoption of the resolution was twenty five—several others, like Fuller, sneaking in so as to appear decently on the record, after voting with the South on all the real test questions

This sort of dodging is too well understood to avail much

California Steamers, Carrying the United States Mail.

5th and 20th of each Month

Reduced Prices 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama A R

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and Tickets that are signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C L. BARTLETT, Agent,

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes and Blinds for good dwelling houses and other buildings to be erected in this city the coming season. He has exceedingly skilful workmen in his employ, and has a superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality either for a whole building or for a less quantity The trouble and expense of building is very much lessened by having these articles made separately so that the carpenters have only to put them in their place in the structure

This business has now become so well systematized as not only a great margin is left in knowing beforehand the cost of a dwelling house, while the work is of a uniform excellent quality

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M S Jackson, on Exchange st, and at such other place any article may be obtained or large quantities ordered

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect methods

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, Removing all diseases arising from Excess of Mercury, exposure and Imprudence in life, Impurities of the Blood, and the constitutional disease arising from an impure state of the Blood, and the Fluids Unfailing remedy for the cure of Scrofula, Scrofulous Affections of the Throat, Ulcerations of the Tongue, Skin and Stomach, Rheumatism, Scald Head, Ulcers on the Legs and Arms, Pains and Swellings, Tetter, Pimples in the Face, Blotches and Eruptions on the Skin.

The proprietor of these medicines has the satisfaction to be able to state that it is now nearly three years since the first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and physician the highest degree of satisfaction in the cure of the most obstinate cases in which they have been employed, in many instances, after all other remedies, and even the most skilful physicians, had failed, and in fact, in every case where the directions for use have been complied with, they have invariably given unequivocal satisfaction, and in many cases have produced the most astonishing and beneficial effects Numerous letters have been received from the most distinguished physicians in the country, and from the profession of several medical colleges, highest terms the value of these medicines for their superiority over all other preparations of Sarsaparilla and various modes of preparing them, all of which of course will differ according to the mode of preparation which each individual may adopt

These medicines require considerable care in the preparation, and employment of different menstrua in such extractive matter, as frequently inspires much impairs the injudicious and unexpanded those unacquainted with the process, of the highest consideration and importance, that there is a uniform strength in all cases. To effect this I have made a combination of the extractive properties of the Sarsaparilla, Yellow Dock, and the most efficacious The experiments of years, as it is with much pleasure and the faculty I have at length perfected a combination of the articles they now contain all the active principles of which are represented in a concentrated form, a combination which can be taken in a wine glass of the Extract Sarsaparilla, as usually made in a pint of water, or in a quart of diet drink, and one bottle of the fluid equals in its effects, one gallon of Syrup of Sarsaparilla, as usually made
